INSTYLE HEALTH

TRANS SEAS

INSTYLE HEALTH

INSTYLE Health is a comprehensive collection of beautiful textiles + vinyls designed to support the philosophy of creating healing environments and to withstand the rigours of health and aged care environments.

Incorporating design themes of the natural elements; air, water and earth, the INSTYLE Health collection has been arranged into five key colour groups to create versatile, coordinating schemes ranging from calming serenity to uplifting rejuvenation.

The INSTYLE Health collection includes over four hundred high performance curtain, privacy screen and bedspread textiles as well as Crypton® and vinyl upholsteries and is ideal for a wide range of healthcare interiors to create spaces that promote patient healing, provide relaxation areas for staff or create comfortable and engaging spaces where visitors can take time out.

SOFT FURNISHINGS

The INSTYLE Health collection includes soft furnishings suitable for curtain, privacy screen and bedspread applications, which are:

- Reversible designs ideal for privacy screens
- ONLINE, SKETCH, EDITION and REFLECT are available at a wide width of 220cm. The width becomes the screen length when railroaded, providing potential cost savings and eliminating the need for joins when used as continuous privacy screens. Additional designs are available at approx. 186cm.
- Fire tested to AS/NZS 1530.3 and AS/NZS 3837
- Engineered to withstand hospital and healthcare laundry and performance standards with a wash temperature of up to 75-80°C

CRYPTON® + CRYPTON® GREEN UPHOLSTERY

The INSTYLE Health Crypton® and Crypton® Green upholstery products are:

- water and fluid resistant
- easy to clean and bleach cleanable
- provide permanent stain, odour, antimicrobial and antibacterial protection

VINYL UPHOLSTERY

INSTYLE Health includes plain and patterned vinyl upholstery products, which are:

- waterproof
- easy to clean and bleach cleanable
- soil and mould resistant
- antimicrobial and antibacterial resistant
- provide excellent lightfastness, some designs are also suitable for outdoor applications

WALLCOVERINGS

INSTYLE's high performance wallcoverings collection includes:

- Type II wallcoverings that are durable, cleanable, and suitable for high traffic areas such as healthcare, hospitality, education, corporate, private residential and multi residential
- Some Type II wallcoverings also offer antimicrobial or antibacterial properties and can be bleach cleaned, which is ideal for healthcare applications

CUSTOM DESIGN

INSTYLE's inhouse design studio can create custom designs to extend the individuality of your project. Working with the latest specialised textile design software, our experienced designers can combine their design expertise and technical knowledge to:

- create new designs to your unique creative brief
- recolour existing products
- incorporate local cultural elements into a design
- fulfil a complex technical brief of creating designs to specific weights, widths, finishes and performance characteristics

Our strong relationships with leading textile mills in Australia and overseas allow for close collaboration throughout the product development process to ensure a consistent and high quality product with reliability of supply.

The custom design process is simple, all you need to do is:

- Contact your local INSTYLE distributor to discuss your design vision with an account manager
- Create the brief including budget, project size, lead time and performance requirements
- The INSTYLE design team will provide a development timeline including design development, computer-aided simulations if applicable and sample production
- Final samples submitted for client approval

INSTYLE is proud to have designed and supplied textiles for many major healthcare projects including:
