

wovin wall®

T wovin® T

Project: I-Square  
Firm: Benoy HK  
Location: Hong Kong  
Material: Polypropylene Opaque Red

## versatile / striking / beautiful

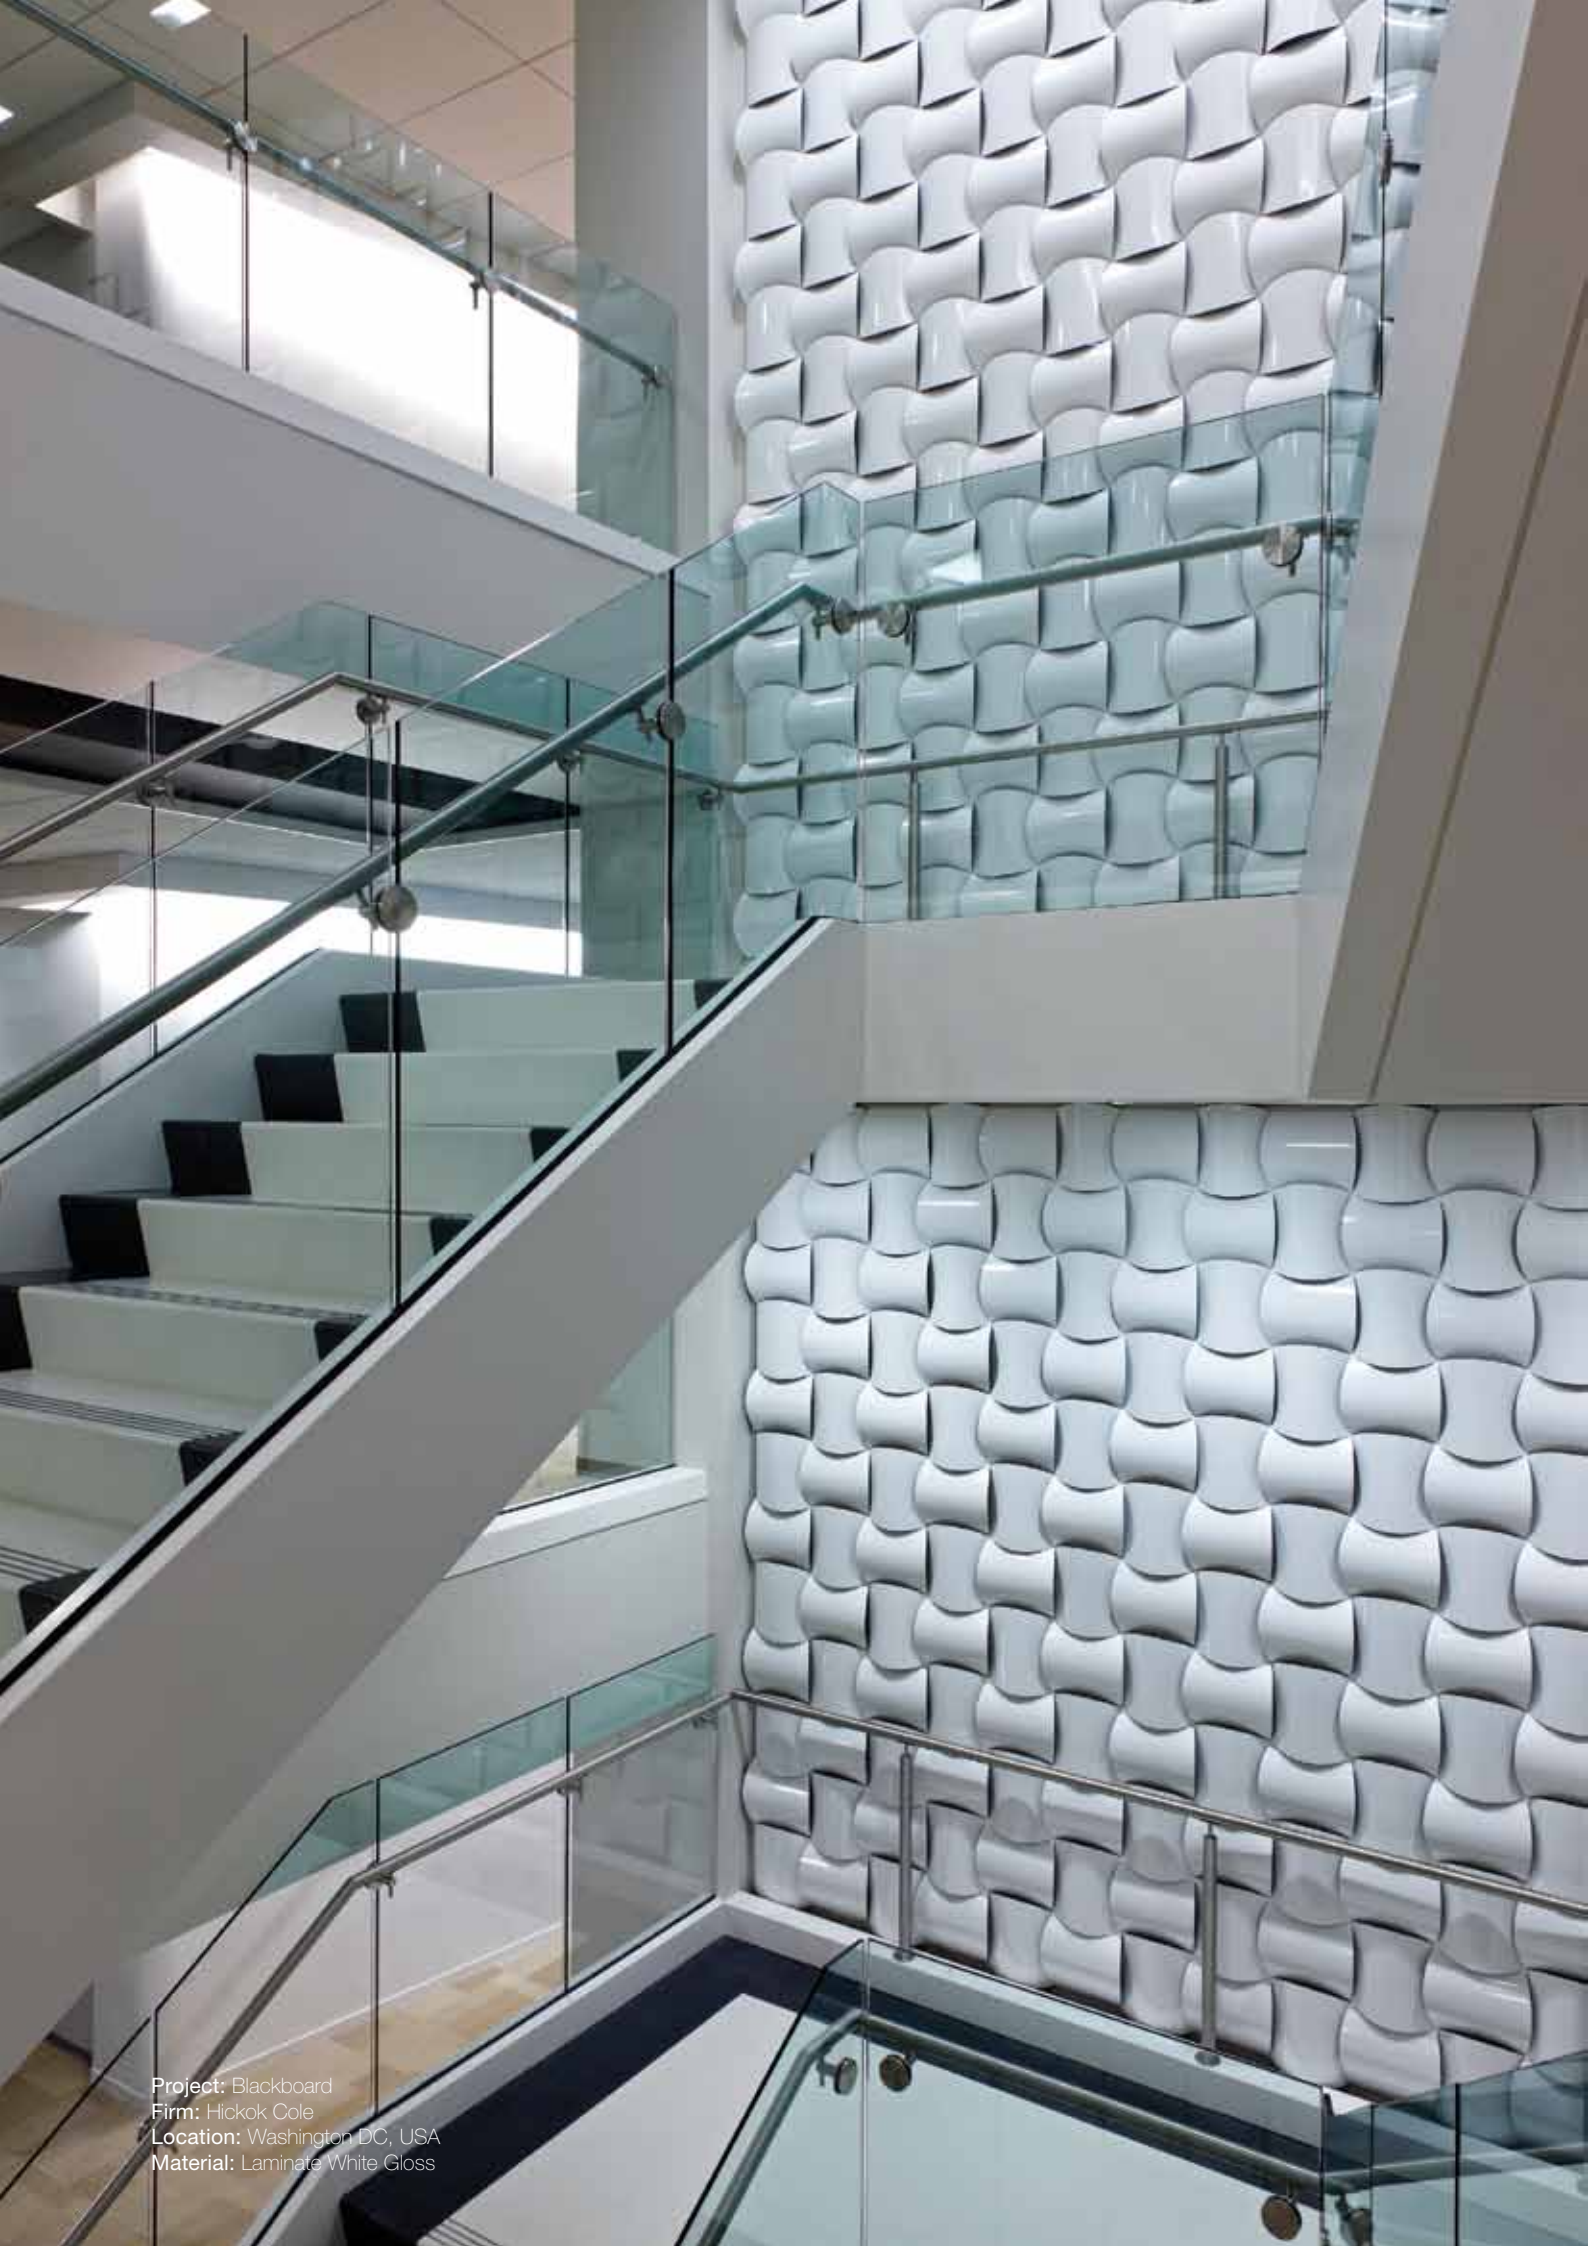

Wovin Wall® creates a powerful statement and provides design solutions for interior walls and ceilings unlike any other product. An elegant, simple, lightweight and decorative tile system that is easy to install and can be fixed to most walls or ceilings.

Wovin Wall® is a modular system that can be extended in any direction and customised to suit most spaces. For those spaces that change frequently (such as exhibition and retail spaces), the modular nature of Wovin Wall® is the perfect medium to reflect new colour schemes, product launches or seasonal changes.

**Project:** URSA Capital  
**Firm:** Toda Group Design  
**Location:** Moscow, Russia  
**Material:** Navlam SB Bunya

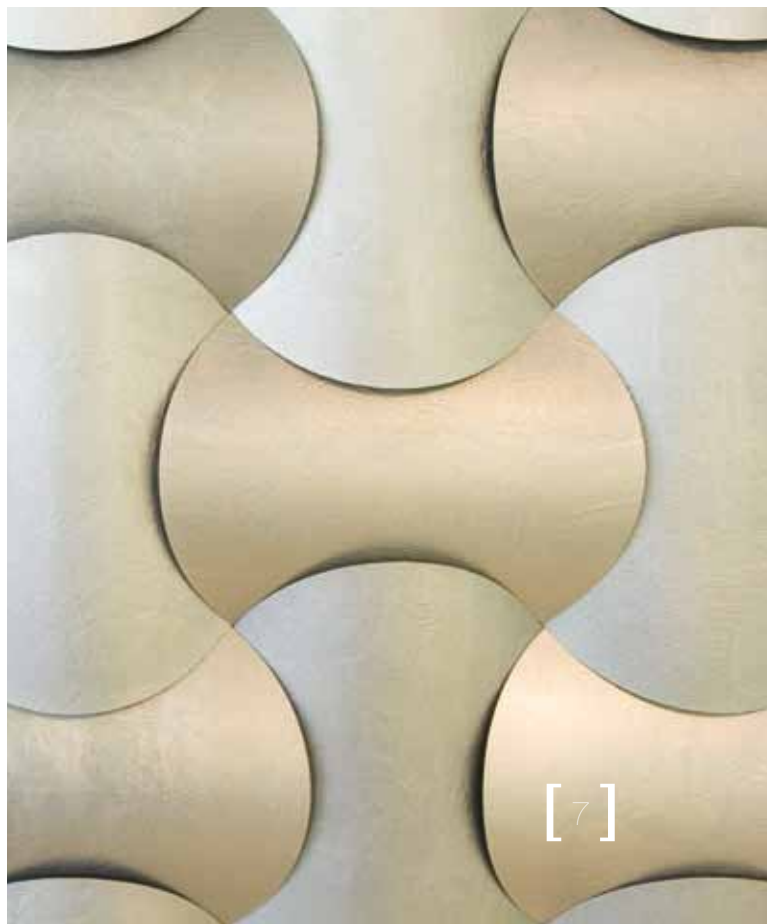

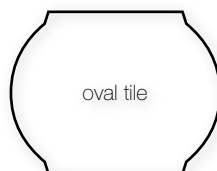

Project: Blackboard  
Firm: Hickok Cole  
Location: Washington DC, USA  
Material: Laminate White Gloss

## a modular system with endless possibilities

Distinctive patterns can be created using standard or oval-shaped tiles, which are simple to assemble with the lightweight mounting grid. Wovin Wall® can be installed without edging, or with a Standard or Deluxe edging frame in clear anodised aluminium.

Wovin Wall® is available in a wide variety of standard finishes such as timber laminate, metal laminate, polypropylene and solid colour laminate. They can also be made from custom materials to suit your project.

**Project:** Royal Oak Hotel  
**Firm:** Snell Architects  
**Location:** Sydney, Australia  
**Material:** Hoop Pine Veneer

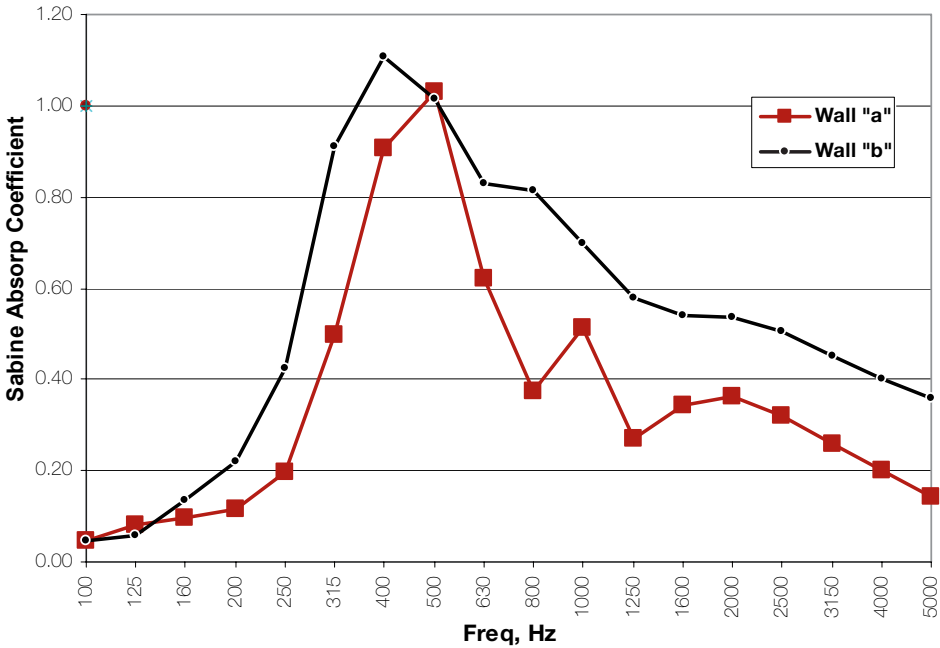

# an acoustic solution with style and function

The acoustic properties of Wovin Wall® assist in improving the comfort of interior spaces. Wovin Wall® has the capacity to both absorb and diffuse sound particularly those relating to vocal sound waves in the mid range frequencies.

Wovin Wall® is ideal for restaurants, bars, reception centres, public and open spaces where reverberated noise is an issue.

The NRC is calculated as an average of the Sabine Absorption Coefficients at 250, 500, 100 and 2000Hz

Sabine Absorption Coefficients		
Freq, Hz	Wall "a"	Wall "b"
100	0.05	0.05
125	0.08	0.06
160	0.10	0.13
200	0.12	0.22
250	0.20	0.43
315	0.50	0.91
400	0.91	1.11
500	1.03	1.01
630	0.62	0.83
800	0.38	0.81
1000	0.51	0.70
1250	0.27	0.58
1600	0.34	0.54
2000	0.36	0.54
2500	0.32	0.51
3150	0.26	0.45
4000	0.20	0.40
5000	0.14	0.36
<b>NRC</b>	<b>0.53</b>	<b>0.67</b>

Wall "a" – tiles, timber finish

Wall "b" – tiles, timber finish with Sonex foam squares

**Project:** Andaz Hotel  
**Location:** London, UK  
**Material:** Laminate White Matt with White Polypropylene lining

**Project:** L'Aromate  
**Firm:** Ardes Design  
**Location:** Montreal, Canada  
**Material:** Polyresin Chill, Whip

## backlit installations set the mood

Backlit tiles can be used to striking effect on both the wall and ceiling.  
 The use of dimmers, spot lighting and coloured lighting add to the mood  
 and ambience within an interior.

**Project:** Abelson Taylor  
**Firm:** Harley Ellis Devereaux  
**Location:** Chicago, USA  
**Material:** Custom printed images on PETG  
Matt and Polypropylene Vanilla

## create a strong impact with custom printing

Wovin Wall® is the perfect medium for photographs and company graphics. Printing the tiles provides an ideal opportunity for creating unique interior statements, reinforcing branding with custom colours or displaying new product ranges. Custom printing can also be used to achieve custom colours.

**Project:** Studio  
**Material:** PETG Gloss with Cascade
